F2253 Diamond Black

Discover washroom elegance and simplicity

Introducing the Formica® Washroom Collection; our latest premium range of High Pressure and Compact Grade Laminates for cubicles, lockers and washroom environment solutions.

We've taken away the complexity of designing and specifying washroom environments. By combining the highest quality laminate, efficient sheet sizes, on-trend decors, an unrivalled service and comprehensive stock availability; we have the perfect solution to help you deliver your washroom projects.

Collection highlights:

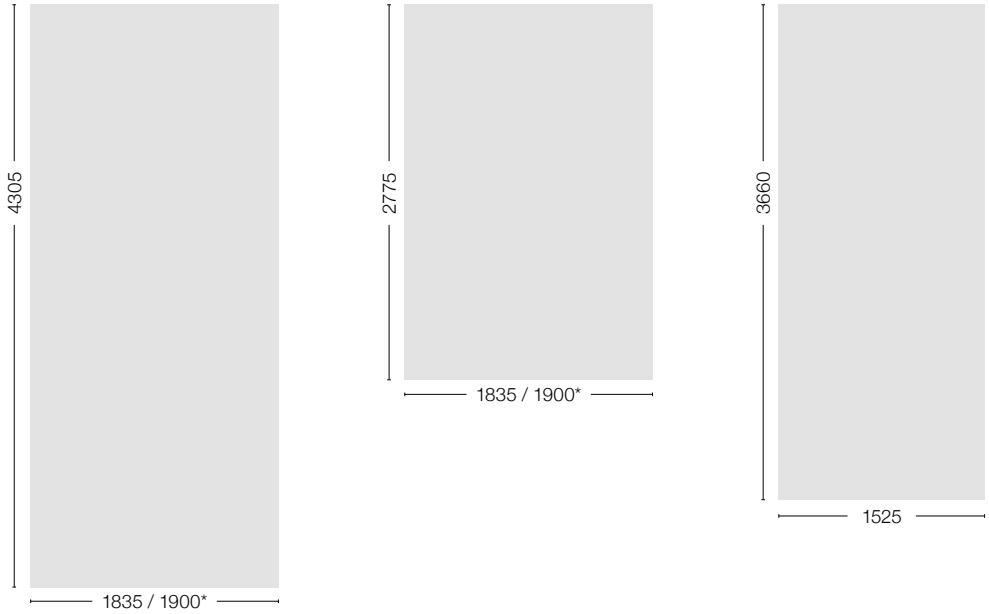
- Three sheet sizes to meet washroom design and legislative requirements, whilst ensuring the best yield and maximum efficiency
- Extensive range of 40 on-trend decors
- Matching High Pressure Laminate (HGP, 0.7mm) and Compact Grade Laminate (CGS, 12mm) to provide a solution whatever the application
- All available in our classic and robust texture, Matte 58

Sheet sizes designed for you

The Formica® Washroom Collection meets today's requirements for design and size variations, whilst satisfying the desire for increased privacy. From standard to full-height cubicles, locker systems, vanity units and wall panelling, the sheet sizes offered in the collection minimise waste and improve efficiency when undertaking any washroom project.

A winning combination: matched HPL and Compact

New to this range is a matching 0.7mm High Pressure Laminate in our largest format size. Offering both High Pressure Laminate and Compact Grade Laminate in complementing sizes provides you with the flexibility to offer any design variations, covering all applications found within a typical washroom environment.



Created to last

Formica® Laminate provides unbeatable solutions for washroom applications such as toilet and shower cubicles, wall panelling and vanity units, which can be postformed to minimise jointing.

Formica® Compact is ideally suited to particularly demanding environments that are subject to high levels of humidity, impact and wear and tear, making it ideal for cubicles, IPS panels and lockers.

- Highly resistant and durable
- Hygienic and easy to clean
- Large sheet sizes to reduce joints
- Resistance to moisture
- FSC® Certified laminates

**CGS (12mm) = 1835mm width HGP (0.7mm) = 1900mm width*

Younique®

DESIGN A LAMINATE *by* FORMICA GROUP

We're confident that the Formica® Washroom Collection has everything you need to create long-lasting washroom environments that are equally as durable as they are visually striking. However, should the design brief require something different - we've got that covered too.

Younique® by Formica Group provides you with the opportunity to incorporate patterns, logos, photographs and bespoke design into your project. Integrate signage directly onto cubicle doors or incorporate corporate logos to enhance your clients' branding. Whatever you decide, bring your design to life and create the ultimate personalised environment.

Muscular System

Perfect for all applications within a washroom environment

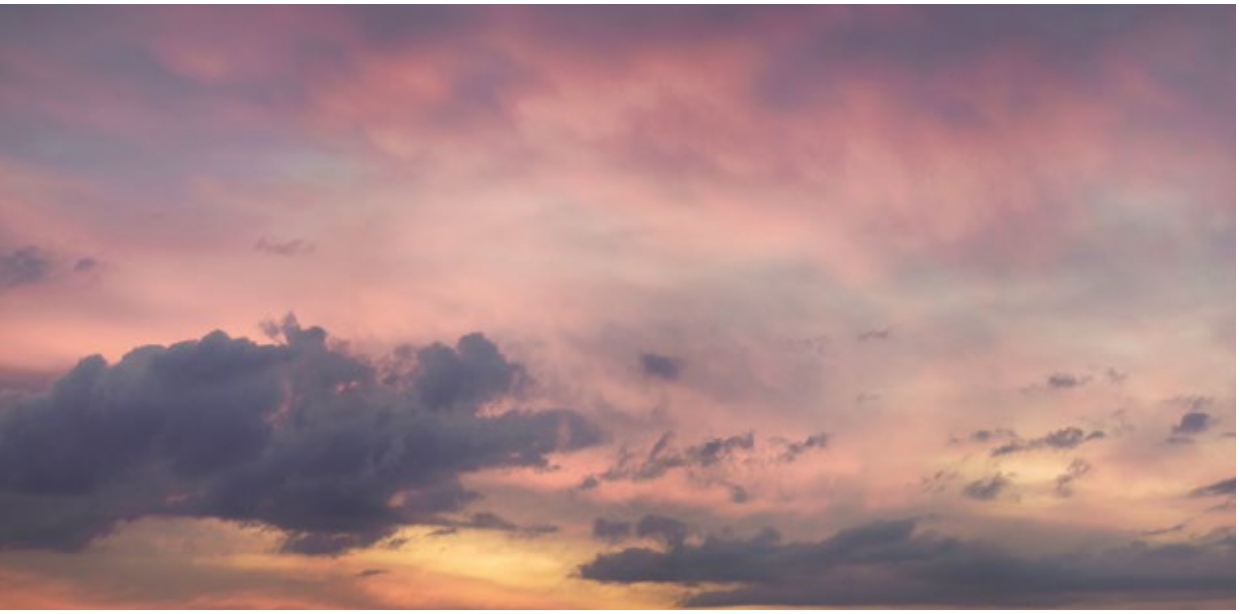
F8237 Fir
F2255 Polar White

Helping you create a beautifully considered space

Functional environments don't need to compromise on aesthetics, and in fact good looking, clean washrooms can attract visitors, which is paramount for shopping centres, hospitality and transport hubs.

We've added 10 new designs to create a sophisticated colour palette and for simplicity, each decor in our range is available in all sheet sizes, two grades and a matte only finish - so there's no complexity around pricing or availability.



Colour perfection

With our in-house design team at the forefront of colour forecasting, we believe that the new colour additions are appropriate and on-trend for the washroom market. In this collection launch, four new pigmented colours have been added to the range for a bold update. Cassis, Night Sea and Fir are deep and striking, while Blush is dusky and light. These tones all complement and combine well with grey and beige hues in natural looking materials of wood and stone, which are becoming more popular in washroom environments.

Elegant wood development

There are four new woodgrain developments in this collection; two Cedars, an exotic Legno and a subtle and elegant Maple. Woodgrain trends for washrooms are moving away from orange tones and rustic structures, towards the more simplistic and linear woods - perfect for washroom applications.

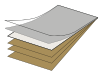
Formica® Compact

High pressure structural laminate, built up from multiple layers of kraft paper.

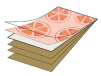
Grade: HPL/EN 438-4 CGS: Compact, General Purpose, Standard high pressure decorative laminate
Thickness: 12mm
Weight: 16.4 kg/m2
Decorative surface: Both sides
Bonding requirments: Self supporting - no bonding required
Applications: Washroom cubicles, locker systems, wall panels, vanity units, partitions, benches
Features and benefits:



Formica® Laminate

Manufactured through fusing multiple layers of impregnated paper under high pressure and temperature.

Grade: HPL/EN 438-3 HGP: Horizontal, General Purpose, Postforming high pressure decorative laminate
Thickness: 0.7mm
Weight: 1.02 kg/m2
Decorative surface: Single sided
Bonding requirments: Requires bonding to substrate. May also require backer and edging depending on substrate and application
Applications: Washroom cubicles, locker systems, wall panels, vanity units, partitions, benches, doors, curved surfaces
Features and benefits:



Younique® by Formica Group
